## Roc Joan Gaspar

Outdoor bollard with a pressed glass diffuser. Its wavy shade covers the light, softens it, and creates an inviting atmosphere. Now, Roc evolves to provide even more light and expands its collection with two new sizes and a bollard version.

All versions include a filter accessory that reduces glare and screens the light. The bollard also integrates a downward anti-glare filter. Roc resembles a shining block of ice, with an irregular texture that begs you to touch it.
