

Roc

Joan Gaspar

marset

Wall light for indoor and outdoor use, with a pressed glass diffuser. Its wavy shade covers the light, softens it, and creates an inviting atmosphere. Now, Roc evolves to provide more light and expands its collection with two new sizes and a white finish.

All versions include two accessories: a dome-shaped piece that covers the LED and floods the shade with light, and another that acts as a filter to reduce glare. Roc resembles a shining block of ice, with an irregular texture that invites you to touch it.
