LED-Ginger XL 42

Wood is an old ally of cozy lighting. It is a material that is hard to mold, a challenge that the LED-Ginger collection neatly resolves. The combination of sheets of wood and paper pressed together under high pressure achieves a laminate that appears almost entirely flat.

⚠ WARNING. California Proposition 65 Warning for California Consumers. This product can expose you to chemicals including wood dust and lead which are known to the State of California to cause cancer or birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov

Range

With an original system to orient and suspend it, the LED-Ginger lampshade hangs from a structure that replaces the ceiling. The system allows the lamp to slide forward and backward and to be folded to either size. The carbon fiber arm has two possible movements depending on the pre-established position of the pivot joint. It is altogether striking, spectacular yet contained. It comes in two sizes to fit the needs of different spaces.
