## Lauro J. Pérez Mateo & P. Aragay

Volume, solidity, and legacy. Lauro is the reissue of an iconic lamp made of steel and methacrylate, first launched in 1973. Its structure and materials connect us with the emotional language of the past.

Its shade allows the light to be directed by rotating it and adjusting its height along the structure. This luminaire is striking in its presence, a true example of how good design endures over time.
