Djembé Joan Gaspar

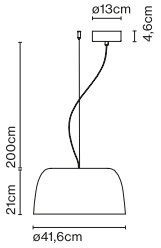

Using a rotomolding technique allowed the designer, Joan Gaspar, to design a fixture with vastly different interiors and exteriors: its outside recalls the texture of a stone, giving off a perception of great weight, emphasized by its volume. In the spacious interior you'll find a smooth, white space perfect for the reflection of light. Djembé is a lamp designed for use in public spaces that seeks to bring beauty and an unbeatable quality of light.
