

LED - Ginger

Joan Gaspar

marset

The LED-Ginger collection is notable for its great simplicity of form, its lightweight appearance and reflected direct light. A design for any type of project. Available in two very different materials, wood or metal, it provides a warm glow with no glare,

illuminating just the areas that need it. With these two highly diverse materials –wood and metal– the LED-Ginger turns into a versatile collection, rounding out the circle and offering a lamp for every lighting and decorating need.
