

Copérnica **Ramírez y Carrillo**

marset

The Copérnica collection consists of desktop and floor lamps that use counterweights of mixed materials and density, such as steel and aluminum, allowing one to move the lamp with great precision and providing a wide range of heights, distances, and

adjustments to suit one's taste. The Copérnica draws minimalist structures in space, as if it were a canvas, and the carefully selected color schemes add soft chromatic touches to the ensemble.
