

Funiculí

Lluís Porqueras

marset

Funiculí is a revamped edition of a lamp originally designed in 1979. Lluís Porqueras always sought an absolute simplicity in his designs, stripping everything superfluous to leave only the essence of the simple, useful object.

Using the same double-clip mechanism of the original, this scaled-down model allows easy height adjustment and 360 degree shade rotation to fit the needs of any room or user.
