

Theia

Mathias Hahn

marset

The Greek goddess Theia – mother of the sun, the moon and the dawn – lends her name to this lamp, whose design express the beauty of light and the fascination we feel for it. The materials and shapes are the physical manifestations of the underlying

concept: merging both light and shadow in a single piece. It can be pointed towards you for use as a reading lamp, or towards an object or a wall, creating a subtle, indirect light that immediately warms the atmosphere.
