

Dipping Light

Jordi Canudas

marset

Beyond its function as a lamp, the Dipping Light seeks to excite. When it's turned on, its different shades of paint sift the light, creating a magical ambient effect. When it's off, its colored glass sphere is an object charged with beauty, and an

eye-catching design piece for a shelf, bedside, or table. The various layers of paint draw concentric circles and capture the light, moderating its intensity. The paint becomes the shade, colouring and texturizing the light.
