The N. Ocho reading lamp fulfils all the necessary criteria for perfect operation: efficient light, easy handling, durability, and beauty. It was designed specifically to respond to each of these requirements, resulting in a "well-rounded" fixture that fulfils

its mission perfectly. The wooden sphere of the N. Ocho's lampshade is handcrafted to make each lamp unique. Its smooth texture has the quality and feel of a billiard ball, is a mainstay that improves its look without sacrificing its efficacy.
