# Trail Mix

“GORPCORE” STYLE HAS BROUGHT HIGH-FASHION CRED TO OUTDOORSY GEAR LIKE HIKING BOOTS. HERE ARE FOUR GO-ANYWHERE LAMPS THAT CONTINUE THE SENSE OF ADVENTURE

WORDS \_Eric Mutrie

PHOTO \_Alessandro Cancian

ART DIRECTION \_Kari Silver

## → CHISPA BY MARSET

A built-in hook on the bottom of this caged polycarbonate lamp allows it to be hung upside-down like a classic construction light. Offered in four hues, the waterproof design is by Spain's Joan Gaspar.

## ↓ LUCI BY PABLO

Mimicking a flashlight — but casting light downward rather than outward — Luci sets the mood for post-dinner ghost stories. Its anodized aluminum body is offered in satin silver, black, brass and matte white finishes.

## ← PITON BY MUUTO

Canadian designer Tom Chung continues to reach new heights with his torch-like Piton lamp, named for the metal pegs that anchor rock climbers to a mountain. Choose from anodized aluminum or black finishes. [muuto.com](http://muuto.com)

## ↓ QUASAR BY PETITE FRITURE

Named after ultra-bright celestial bodies, French designer Samy Rio's portable companion leads the way to midnight stargazing. It's available in five anodized aluminum colourways, each with a coordinating polyester rope. [petitefriture.com](http://petitefriture.com)
