AURA

The circular wall lamp by local creative Joan Gaspar exudes soft, feathery radiance. Made of thin glass and available in a variety of colours, it is a pretty sight even when switched off.

At the luxury label's headquarters in Valencia, we spotted their Architectonic Tree from the Blau range of outdoor furniture. Designed by Fran Silvestre Arquitectos studio, the light is an ode to nature as it assumes the shape of a tree that adapts to urban environments.

These Spanish restaurants offering delicious food paired with fabulous interiors swept us off our feet

1. Solomillo: Merely a 5 minute walk from Gaudi's popular structures in the city, the gastronomy section of Alexandra DoubleTree Hotel by Hilton Barcelona greets you with its industrial decor designed by the local studio Borrell Jover Arquitectos. Almost all elements here are from native labels. For instance, the Funiculi lamps by Marset were designed by Lluís Porqueras in 1979 while the Basica Minima lamps by Santa & Cole are from 1989. 2. The Wittmore: Hidden in the Gothic Quarter in Barcelona is this five star establishment, located in the Gotic-Ciutat Vella district. The most memorable aspect of the site's beautiful interiors is the central patio that boasts of the city's tallest vertical garden. Website: www.thewittmore.com

FOCUS ON LIGHTING

Small wonder: Spanish creative Inma Bermudez envisioned the portable FollowMe lamp for Barcelona based lighting brand Marset. The Red Dot Award winning product with an oak handle can be dimmed to your liking.
