## hd awards

**HD**expo  
a hospitality design event

## ► winner

The sculptural, surface-mounted Abstract Panels from **Sonneman - A Way of Light** emit LED lights through the layered voids of the river stone-shaped sconces, which come in small or large, two-plate or four-plate options.

## ► finalist

Reminiscent of a full moon, **Foscarini's Satellight** comprises an orb-shaped diffuser made of handblown milk-white glass lodged onto a transparent, wide-blown glass body. The smooth satin finish on the diffuser nods to the celestial imagery of planets in space.

## ► finalist

**Marset's** bell-shaped Djembé ceiling fixture imagined by Joan Gaspar boasts an exposed white interior and an exterior that recalls the texture of stone. Available in numerous sizes and bright colors, the pendants can be used individually or combined for a statement piece.
